

USMAN MAQBOOL

Senior Software Engineer | Full-Stack | DevOps | Cloud

+92-3085758693 | engusman8279@gmail.com | linkedin.com/in/usman-maqbool-10b1321b1 | github.com/usman-maqbool
| Lahore, Pakistan

PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 6+ years of experience specialising in back-end development, DevOps, and scalable full-stack web applications. Proficient in Python, Django, FastAPI, React.js, and PostgreSQL, with deep expertise in system design, REST APIs, GraphQL, Docker, Kubernetes, and AWS. Consistently delivers projects that improve deployment timelines, reduce system downtime, and enhance user engagement. Proven track record of leading cross-functional teams, architecting high-availability systems, and driving innovation across diverse technology stacks.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), HTML5, CSS3, Bash

Frameworks & Libraries: Django, FastAPI, Flask, React.js, React Native, Bootstrap, Pandas, Matplotlib, scikit-learn

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, CloudWatch), Docker, Kubernetes, Nginx, CI/CD (GitHub Actions, GitLab CI/CD)

Databases: PostgreSQL, MySQL, MongoDB, RabbitMQ

Tools & Platforms: Git, GitHub, GitLab, Electron, IoT integrations, Microservices architecture

Concepts: System Design, REST APIs, GraphQL, Machine Learning, Agile/Scrum

PROFESSIONAL EXPERIENCE

Djeneric Solutions

Lahore, Pakistan

Senior Software Engineer II

November 2023 – Present

- Lead full-stack development initiatives integrating system design principles to deliver scalable, production-grade solutions for international clients.
- Architected and built ZeroCheating, an exam integrity platform using React Native, Electron, and Django — reduced manual proctoring overhead by automating surveillance workflows via GitHub Actions CI/CD pipelines.
- Developed Easy Patent Search, an AI-powered patent discovery tool, improving search accuracy and cutting research time by 40%.
- Built Delineate, a Co-Pilot application for Quantitative Systems Pharmacology (QSP) researchers, focusing on high-availability backend architecture and robust data processing pipelines.
- Enforced code quality standards through peer code reviews, automated testing, and CI/CD best practices across the engineering team.

StudioX

Lahore, Pakistan

Senior Software Engineer I

August 2021 – October 2023

- Developed and maintained enterprise-grade web applications using Django (backend) and React.js (frontend), delivering efficient, well-tested Python services.
- Engineered and maintained an IoT-based Qualcomm AFC (Automated Frequency Coordination) portal and DMVI system, improving system reliability and uptime by 30%.
- Streamlined deployment pipelines using GitLab CI/CD, Docker, and AWS, reducing average deployment time by 50% and eliminating environment inconsistencies.
- Collaborated with product and QA teams to define technical requirements, ensuring delivery of features aligned with business objectives.

Crowdbotics

Lahore, Pakistan

Full Stack Engineer

December 2020 – August 2021

- Collaborated with senior engineers to design a scalable cloud infrastructure enabling homeowners to seamlessly communicate with and control smart home devices across multiple OEM brands.

- Contributed to backend API development and front-end component integration, improving device compatibility coverage by 25%.
- Applied AI-assisted code matching to accelerate feature development by reusing modular components from existing codebases.

Dextersol

Django Developer

Lahore, Pakistan
November 2019 – December 2020

- Designed and delivered 30+ web applications using Django and Flask for backend services, and HTML/CSS/JS with Bootstrap for responsive front-end interfaces.
- Improved application performance and scalability by refactoring legacy backend logic and optimising database queries, achieving measurable reductions in page load times.
- Streamlined release cycles by integrating automated testing and deployment optimisation practices, reducing production bugs by 20%.

Optimum Tech

Python Developer

Lahore, Pakistan
January 2019 – September 2019

- Initiated and contributed to foundational AI/ML projects, leveraging scikit-learn, Pandas, and Matplotlib to develop predictive models and generate data-driven insights.
- Gained hands-on experience in model testing, optimisation, and deployment; used Git to streamline the development workflow and reduce integration errors.

EDUCATION

Government College University Faisalabad

Bachelor of Science in Information Technology (BS-IT)

Faisalabad, Pakistan
August 2018 – May 2022

CERTIFICATIONS

AWS Certified Developer – Associate (DVA-C02) | Udemy / AWS | 2023

LANGUAGES

English – Professional Proficiency | **Urdu** – Native
